THE NIAGARA REGION

Jiratthitikaln Maurice / Shutterstock.com

Niagara Falls is in the Niagara Region peninsula, which is famous for its wineries, recreational activities, fruit stands, hiking, biking or walking trails, year long events, rich history, and peaceful quiet moments on the beaches of Lake Ontario or Lake Erie. The falls themselves are located directly on the US-Canada border, but the world-famous and iconic Horseshoe falls lie mostly on the Canadian side.

The falls are famous not for their height, for there are taller waterfalls in the world, but for the astounding volume of water that constantly flows over the edge of the falls fueled by four of the five great lakes, a flabbergasting 750,000 gallons per second at its peak.

TOP 5

Journey Behind the Falls

Journey Behind the Falls is a year-round attraction that affords a unique view of the Falls from below and behind. Visitors descend 150 ft. by

elevator, where a short tunnel (150 ft.) gives access to two outdoor observation decks and two portals located directly behind the Falls. At Journey Behind the Falls, you'll experience the awesome spectacle of one-fifth of the world's fresh water crashing down to the basin below. During summer daylight hours, over 2,800 cubic meters of water thunder over the brink every second, traveling 65 kilometers per hour.

Your Journey Behind the Falls visit will take 30 to 45 minutes and in the spring and summer months, you'll receive a free souvenir biodegradable rain poncho as protection from the mist of the Falls. Elevators descend 150 feet through bedrock to tunnels that lead and to the Cataract Portal and the Great Falls Portal which is one third of the way behind the massive sheet of water. Then you walk on to the Upper and Lower Observation Decks at the very foot of the Falls. Posters of information are a great resource of information about the history and evolution of the hallways you walk through. Journey Behind the Falls is an iconic Niagara Falls experience, so make sure you take a waterproof camera.
