Sylt has long been a playground for Germany's rich and famous, and is called the "German Hamptons" for good reason. Pronounced "Zoolt," Sylt is a surreally beautiful, 25-mile long island on Germany's North Sea coast, that has one of the longest unbroken stretches of immaculate sandy beach in all of Europe. Sylt is famous for its invigorating sea air and sense of space. This summer enjoy magnificent vistas of the sparkling sea, huge sand dunes and endless fields of bright-yellow flowering rape!

## THE CITY

Jenny Sturm/Shutterstock.com

People began visiting Sylt in the middle of the 19th century to take advantage of the iodine-rich air. In the 1960's, Sylt became famous for "the rich and the naked," when the entire island became one big party. The island has grown up quite a bit since then, and it's a tamer affair these days. With its Michelin starred restaurants and some very cool bars, Sylt is one of the chicest destinations in Europe.

Sylt is a very popular destination simply because of its beautiful beaches, dunes, idyllic Frisian hours, lively towns and the lovely fresh sea air. For an island that is only 25 miles long and 700m wide at its narrowest point, Sylt is a big, little place. The largest town is Westerland, which sits bang in the middle of the island. Hörnum lies to the south, while at the northern end is List - the most northerly town in Germany. Understandably, it gets very busy in several places. However, such is the magic of this island that it's easy enough to leave the crowds behind and find your own bit of beach.

## SHOPPING

issxxx (image cropped)

Thanks to its status as a playground of the rich and famous, there is no shortage of designer shops on Sylt. However, it is not all about labels on the island – smaller, cuter shops and

boutiques can also be found here. Kampen is home to elegant jewellers and designer boutiques with their luxury wares, while a wider, more down-to-earth variety of goods can be found in Westerland.

The shops on Sylt are a must for lovers of tea, honey and jam. Also worth a look are the art and craft shops and studios, traditional in the village of Rantum. Similar delights are also found hidden in the side-streets of Keitum.

### Westerland

The island's capital is a great attraction for shopping enthusiasts. The pedestrian areas are where the action is, mainly on

Friedrichstrasse, Paulstrasse, Strandstrasse, and their connecting streets, which are packed full of all kinds of shops, boutiques, brand-name stores and smaller, individual souvenir and leisure wear shops, as well as art galleries, craft workshops, cafés and restaurants.

### TOURIST INFORMATION

### Good to Know

All visitors to Sylt are charged a resort tax called a Kurtaxe that is spent on keeping the island beautiful and clean. In return, you

receive a Kurkarte, or resort card, which gives you access to the beaches and discounts at

museums. If you're staying at a hotel, the Kurtaxe is normally added to the room rate. If you are a day-tripper to the island, you will need to buy a day pass, Tageskarte, from one of the kiosks that can be found along near the beaches.

Naturism is quite popular in this part of the world, so those wanting to go au naturel or those of a modest nature should remember that beaches labelled FKK are designated for naturists.
