Schooner Linnéa & Vega

Linnéa and Vega were built purely as sailing cargo ships. Until the mid-1960s, the ships still sailed various types of cargo. Now they sail with

a cargo of experiences for people who want to try what many have heard of, but few have experienced, namely a ship under sail.

Kerstin and Egil Bergstrom bought the Linnéa in 1968 and since the 1970's they have sailed with various groups, businesses and individuals.

Vega was saved from being broken up in 1985 and extensive restoration was carried out until 2008. She now sails short and longer trips along the coastline.

Want to be an experience richer?

Book a day or weekend trip in the Västervik archipelago on Linnéa!

Want to sail for several days and go further, book the Vega! If there are many of you, you can book both ships! Linnéa has a capacity of 45 passengers and Vega can take up to 70 passengers on day trips. For overnight accommodation there are 20 berths on each ship.
